About me

Hello I am Nicolas Flores, I am working as a **tester junior** although I would like to be a web developer. In my free time I use to study, example of this are my FreecodeCamp course and the projects in my GitHub account. Also I have small projects in my codepenio account.

The technologies that I am improving in this moment are **JavaScript** and **GitHub**.

My objective is to archive my first job like developer.

To get there I am improving in **JavaScript** and **GitHub**.

I would like to start with **JS Frameworks** soon and with **TypeScript**

Work

Tester junior

Grupo GDU

Junio 2021-actualidad.

Study

Testing course

Fundación Forge

Web Development

FreecodeCamp
